Solomon CurbColors is sold in 1 lb bags. Use Portland cement only. Assuming a 47 lb sack of Portland, 25 lbs provides integral coloring for up to 400 linear feet of curb at a 2% load (1 bag of color = 2% load); or, up to 200 linear feet at 4% load (2 bags of color = 4% load).

\* This chart should only be used as a guide, and we suggest that samples be made before determining color choice. These colors may not represent the final color as shade variations can be influenced by a number of factors, including sand, water, cement, etc. used in the mix, as well as other external factors.
